PROFESSIONAL SUMMARY

Junior Software Developer with internship experience building web applications, backend APIs, and AI-driven software solutions. Strong foundation in Java, JavaScript, TypeScript, React, Node.js, Spring Boot, SQL, and software development best practices. Experienced in writing clean code, building scalable applications, testing features, and collaborating in Agile teams. Passionate about solving business problems through software and growing as a full-stack and backend developer.

CORE TECHNICAL SKILLS

Programming: Java, Python, JavaScript, TypeScript, SQL, HTML, CSS

Frontend: React, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Spring Boot, RESTful APIs

Databases: PostgreSQL, MySQL, MongoDB, Firebase, Microsoft SQL Server, Supabase

Tools: Git, GitHub, Docker, Postman, VS Code, IntelliJ IDEA

Cloud: AWS, Microsoft Azure, Oracle Cloud Infrastructure

Testing/Practices: Jest, React Testing Library, Agile/Scrum, CI/CD, TDD, Debugging, API Integration

EDUCATION

Advanced Diploma in Information Technology (Software Development) — Vaal University of Technology | NQF Level 7

February 2026 – Expected November 2026

- Relevant Modules: User Experience Design, Advanced Software Design, Advanced Databases, Artificial Intelligence, Advanced Databases, Computer Security, Emerging Technologies, IT Management

Diploma In Information Technology (Software Development) — Vaal University of Technology

February 2023 – November 2025 | Academic Average: 74%

- Relevant Modules: Information Systems, Development Software (Java), System Software (Networking), Software Architecture, Web Development, Business Analysis
- Achievements: Dean's List (2023, 2024), Information Systems, Development Software, System Software, Software Architecture, Web Development, Business Analysis,

PROFESSIONAL EXPERIENCE

Software Developer Intern

O2M8-2-AI (Pty) Ltd — Albertyon, Gauteng

Feb 2026 – Present

- Built and maintained features for a production web application used by 10K+ users.
- Improved page load speed by 40% using lazy loading and front-end optimization.
- Developed and improved REST APIs for AI-powered financial workflows, increasing backend performance by 40%.
- Participated in Agile ceremonies, collaborated with senior developers, and contributed to code reviews.
- Increased automated test coverage to 85% using Jest and React Testing Library.

SELECTED PROJECTS

Fin Track Pro – AI Accounting Platform

Tech Stack: React, Node.js, Express, PostgreSQL, Rest APIs

- Developed a full-stack financial platform to automate invoice and expense workflows.
- Reduced manual work by 90% through automation and AI-assisted processing.
- Built backend APIs supporting 1,000+ daily requests with 99.9% uptime.
- Improved code maintainability using modular design and SOLID principles.

Credit Card Fraud Detection System

Tech Stack: Python, Scikit-learn, Pandas

- Developed a fraud detection model with 94% accuracy.
- Applied data preprocessing, feature engineering, and model evaluation techniques.
- Tested fraud detection performance using simulated real-time scenarios.

CERTIFICATIONS & CONTINUOUS LEARNING

- Oracle Cloud Infrastructure 2025 Certified DevOps Professional – Oracle (2025)
- Microsoft Certified: Azure Fundamentals – Microsoft (2025)
- ISTQB Foundation Level (In Progress)
- Web Development Fundamentals – IBM Skills Build

LEADERSHIP & ACTIVITIES

Mentor — Applied and Computer Science, Vaal University of Technology

- Mentored 150 junior students in their first programming course
